

VOLTRA

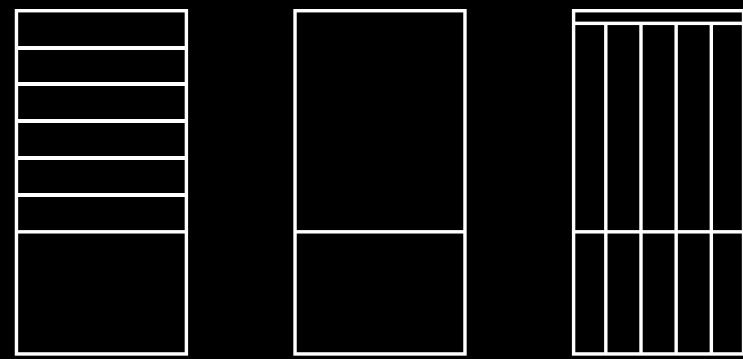

Totem Collection

The Totem cordless lighting range consists of three styles, in two sizes and up to four finishes.

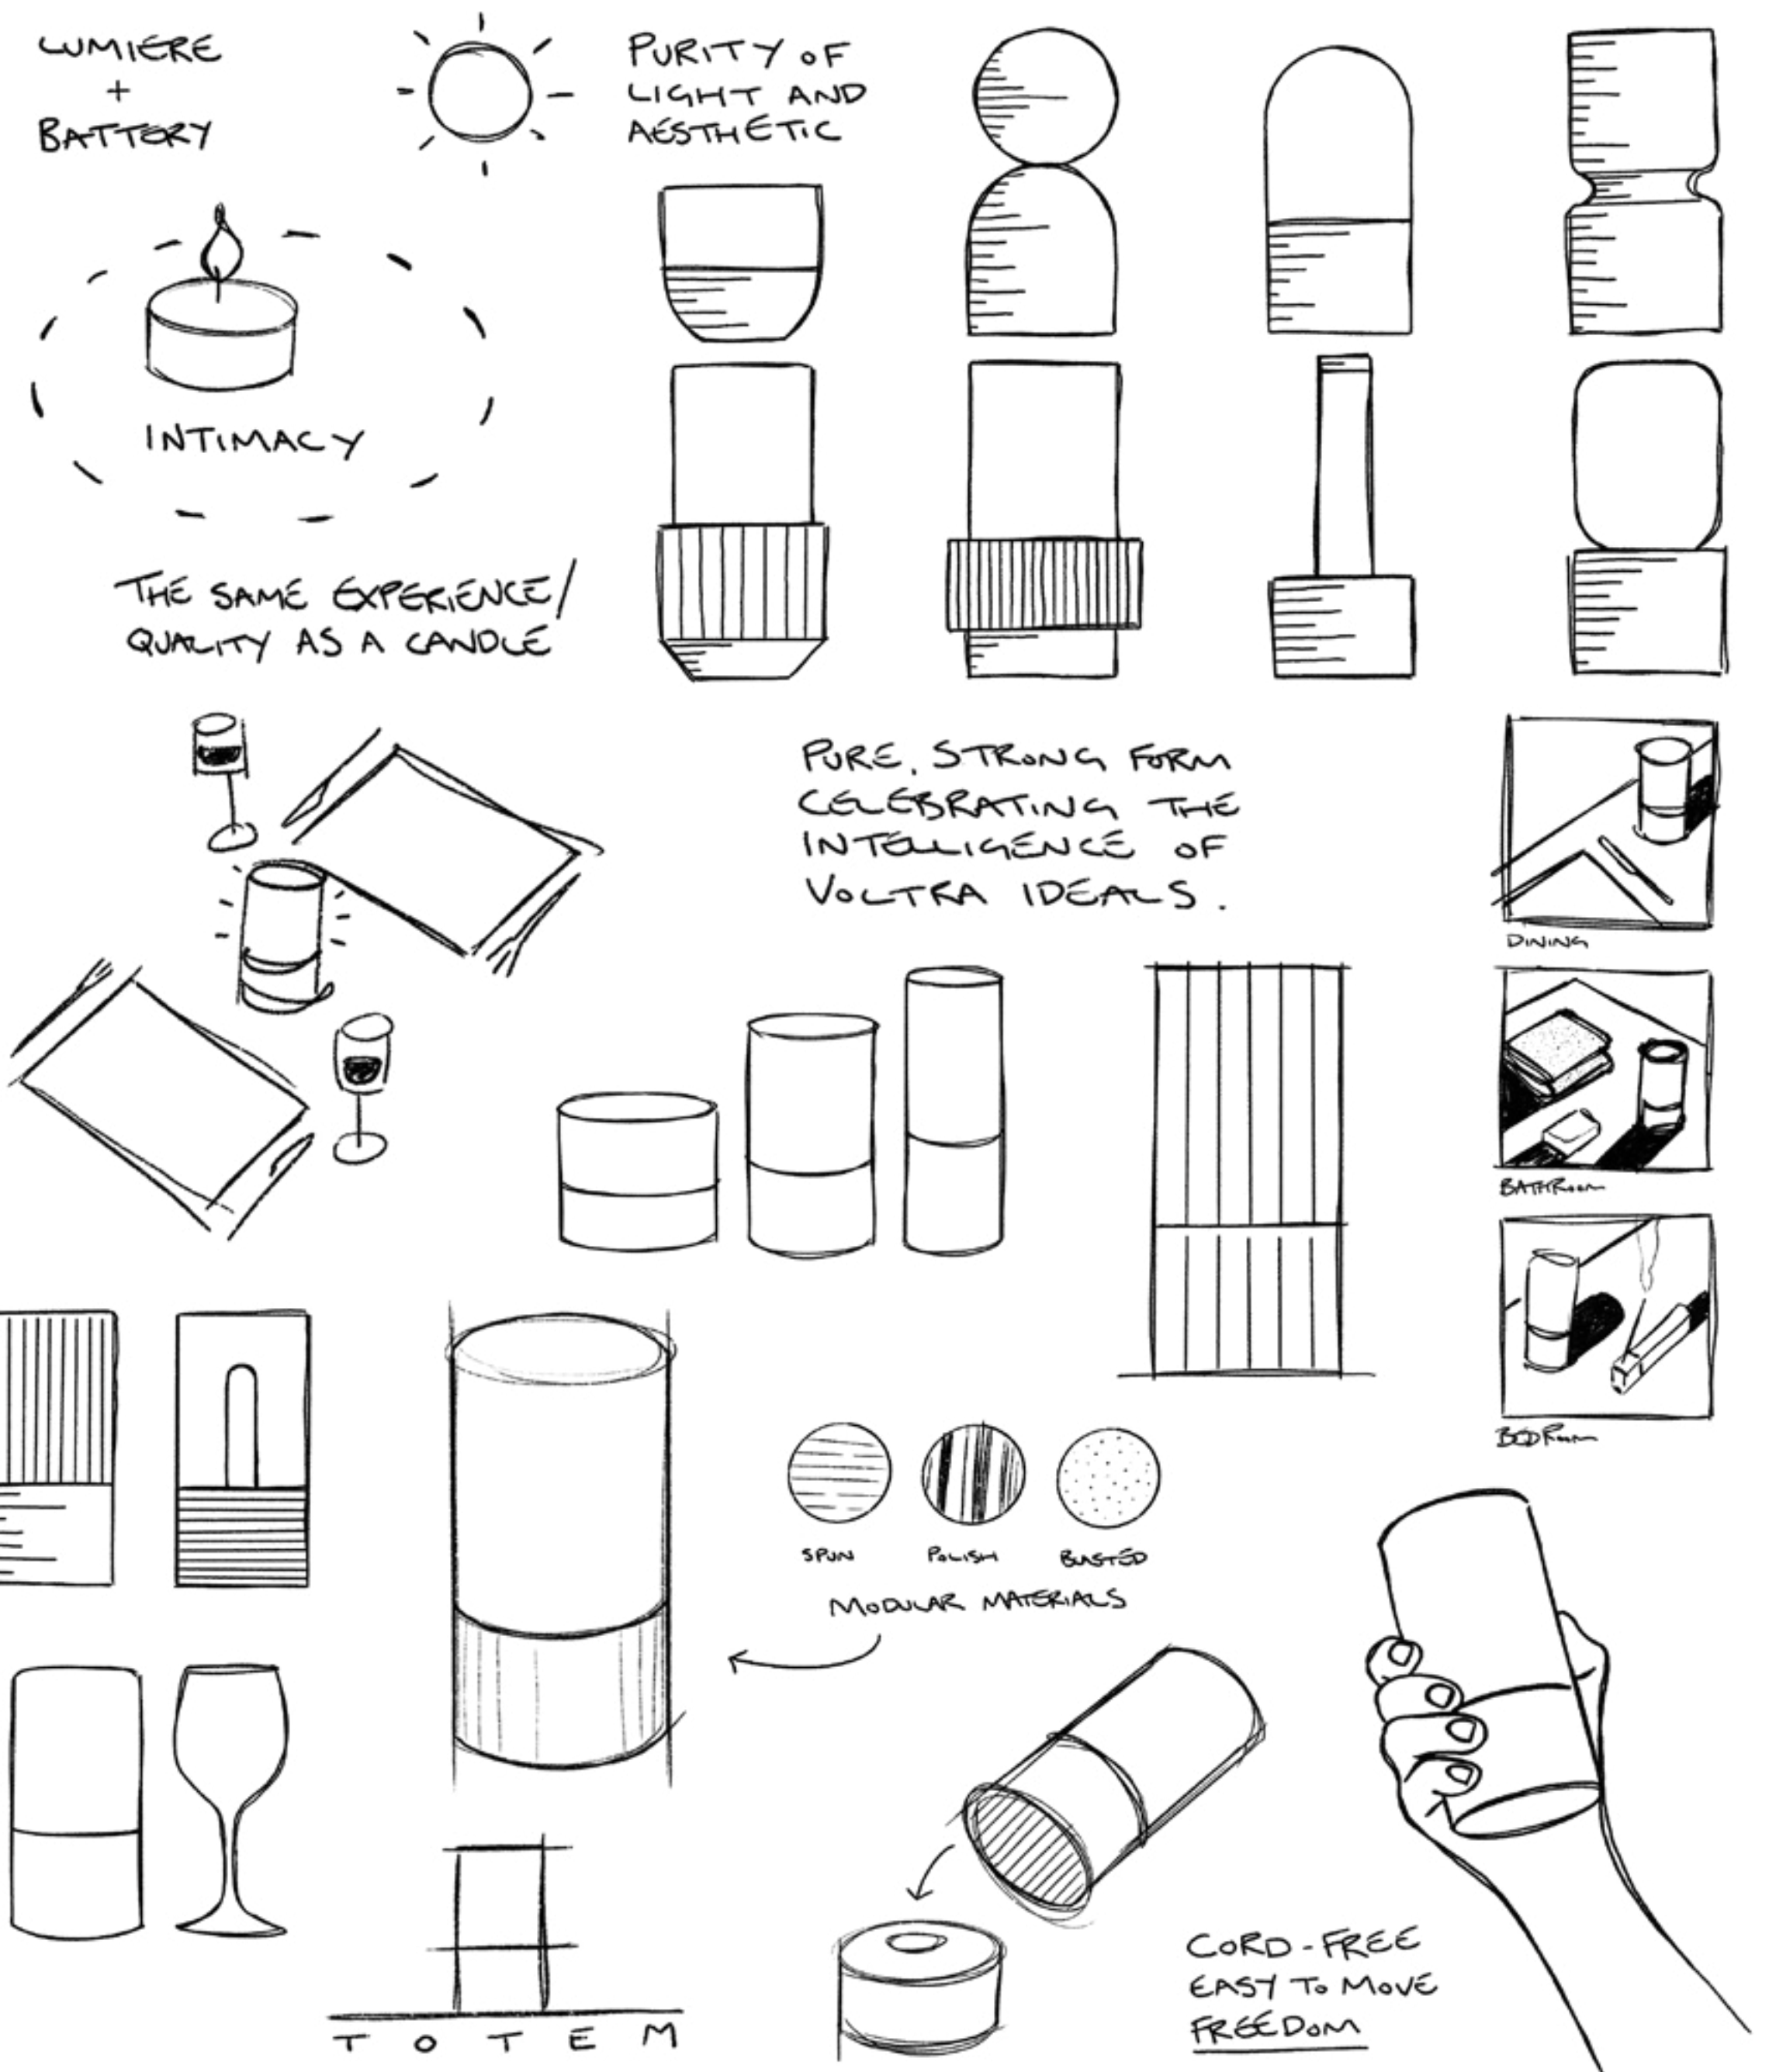

Totem Design

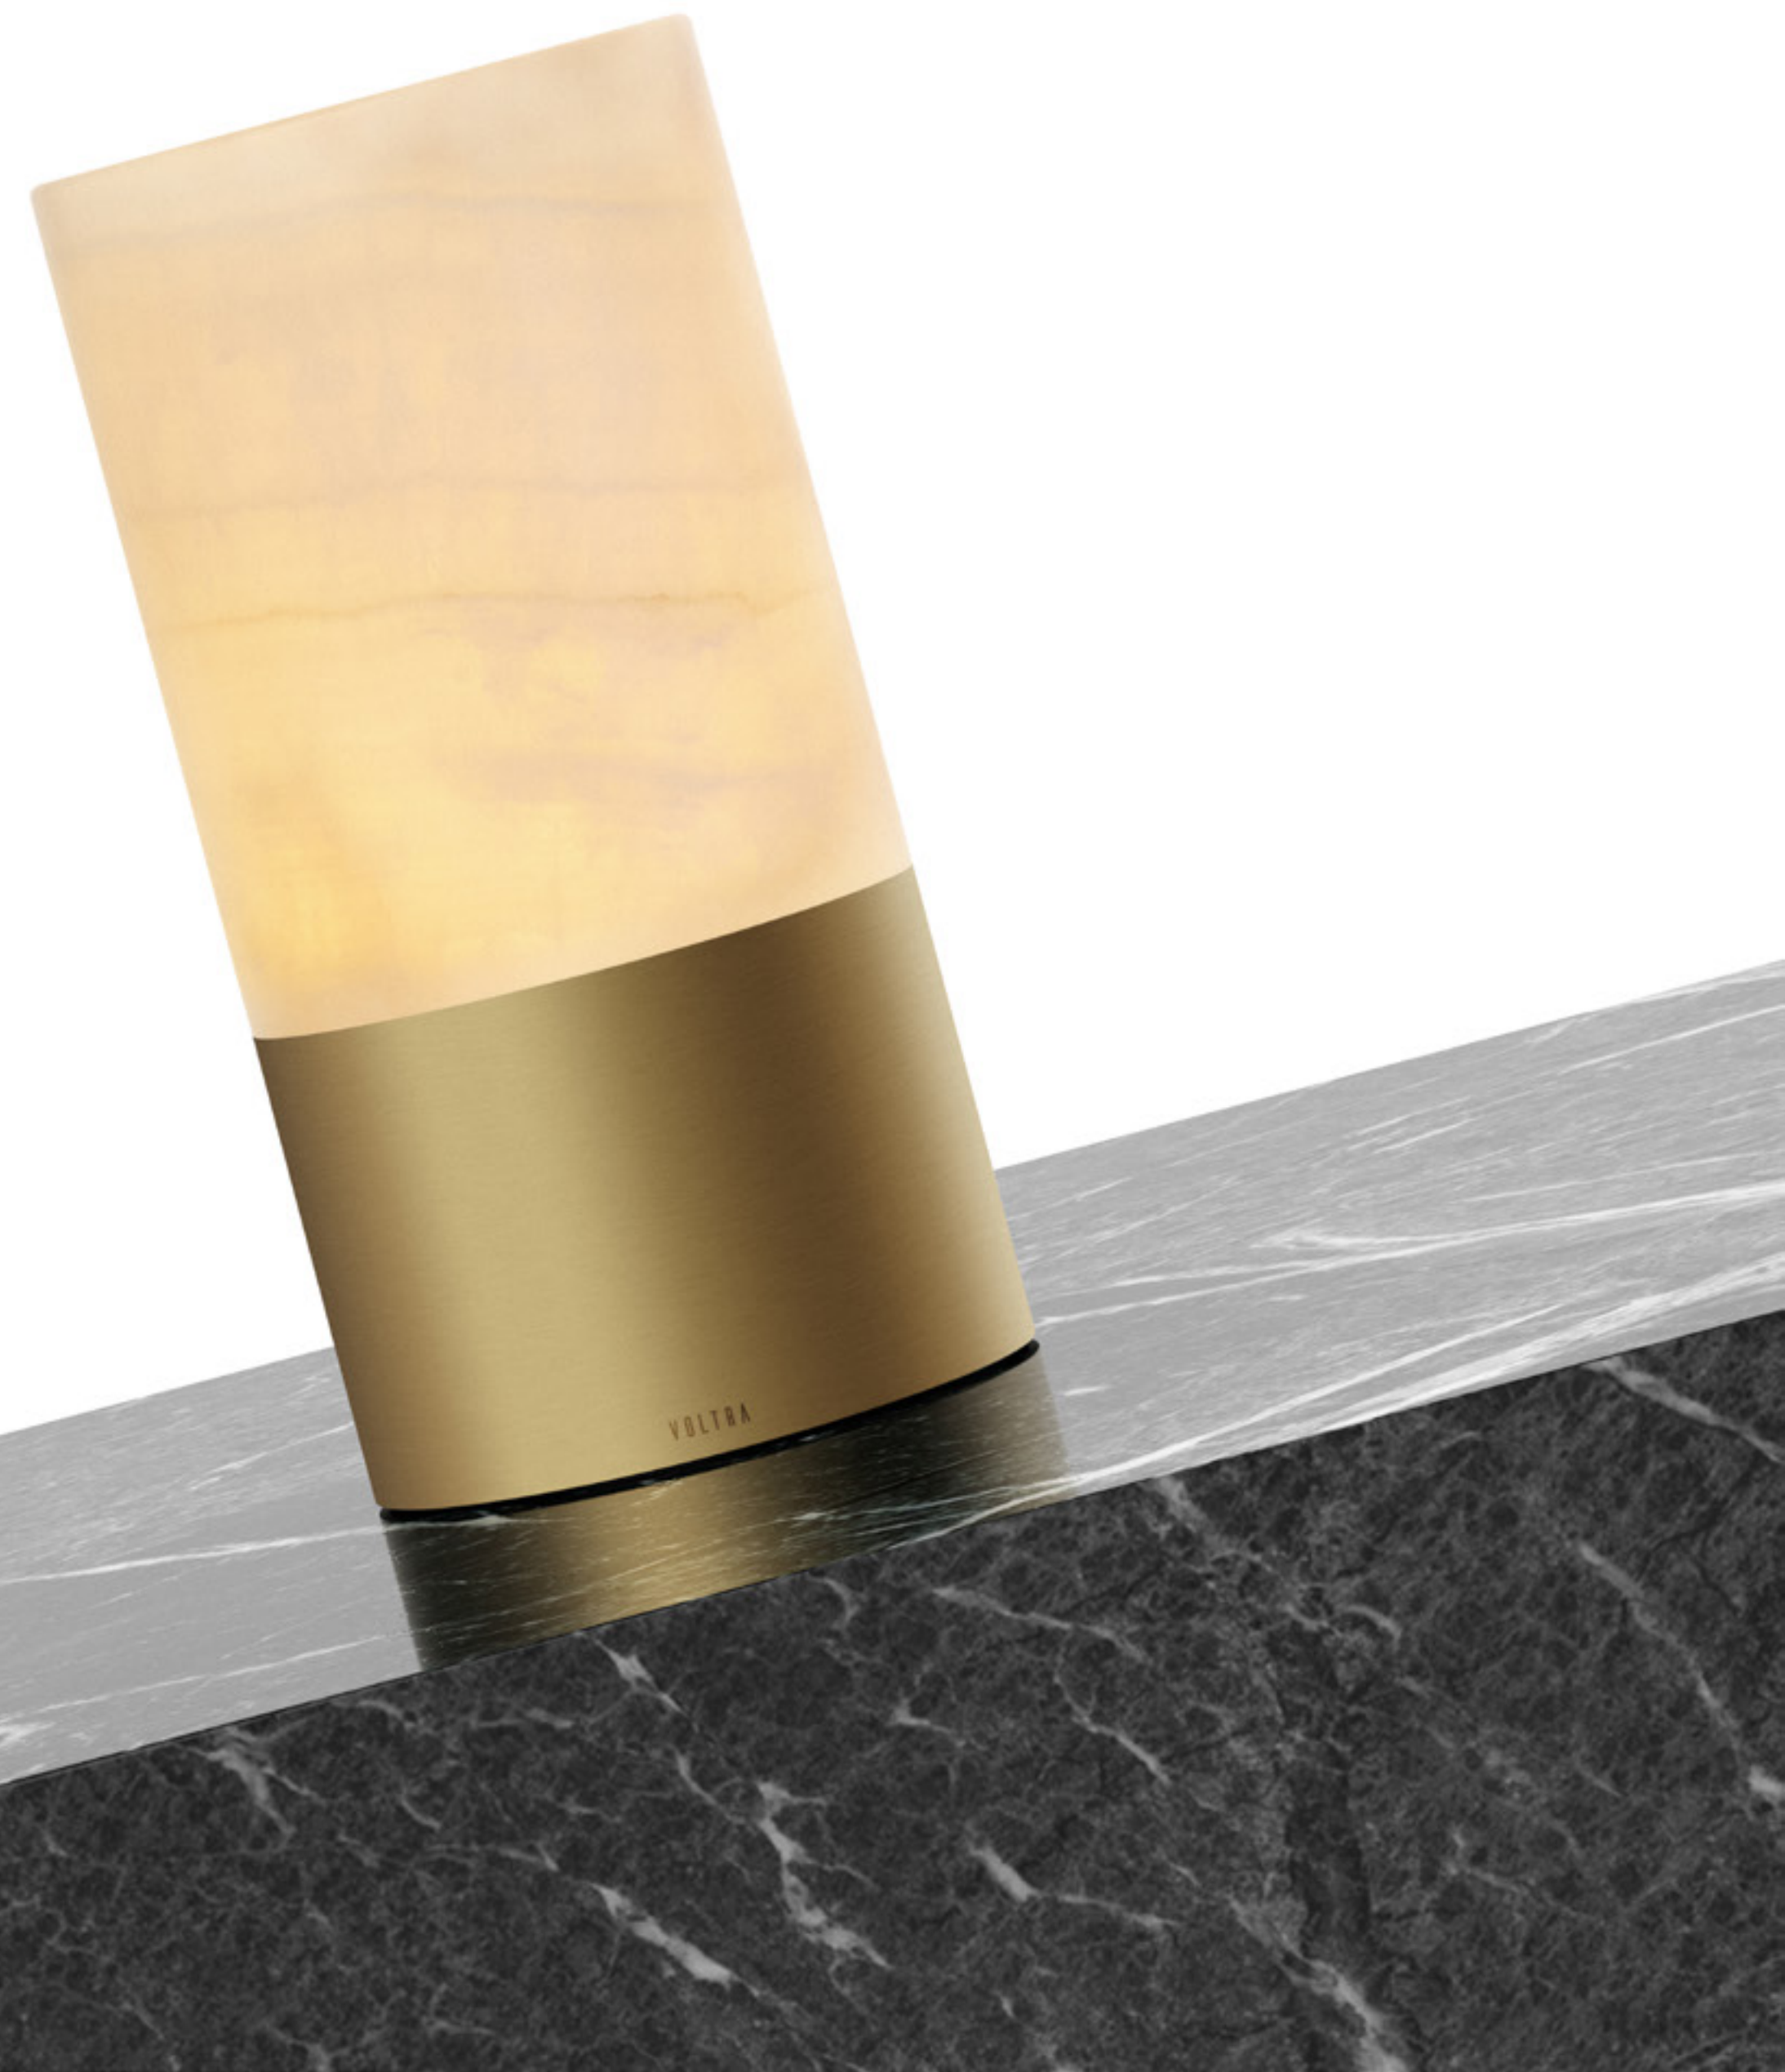

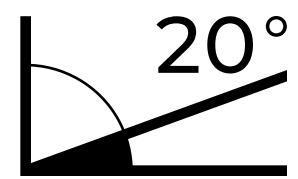

The Totem collection embodies Voltra's core values: intimate, clever and refined.

The philosophy behind Totem's aesthetic purity was to create a lighting fixture that is elegant but unobtrusive, seamlessly blending into any environment and allowing you to create uninterrupted atmospheres of light.

Non-Slip as Standard

A **high-grade silicone gasket** combined with the weight of our hand-crafted Lumières provides **exceptional grip on most surfaces.**

Waterproof. Worry-Free

All of our Lumière's and Engines are fully **IP65 rated**. Ideal for offshore exploration, bath-time relaxation and everything in between.

IP65

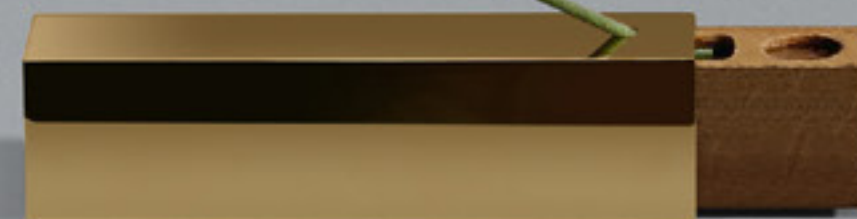

Made to Move

Made using the **finest materials** and **designed to look great** wherever they land. Voltra Lamps are the perfect balance of **strength** and **style**.

Alabaster

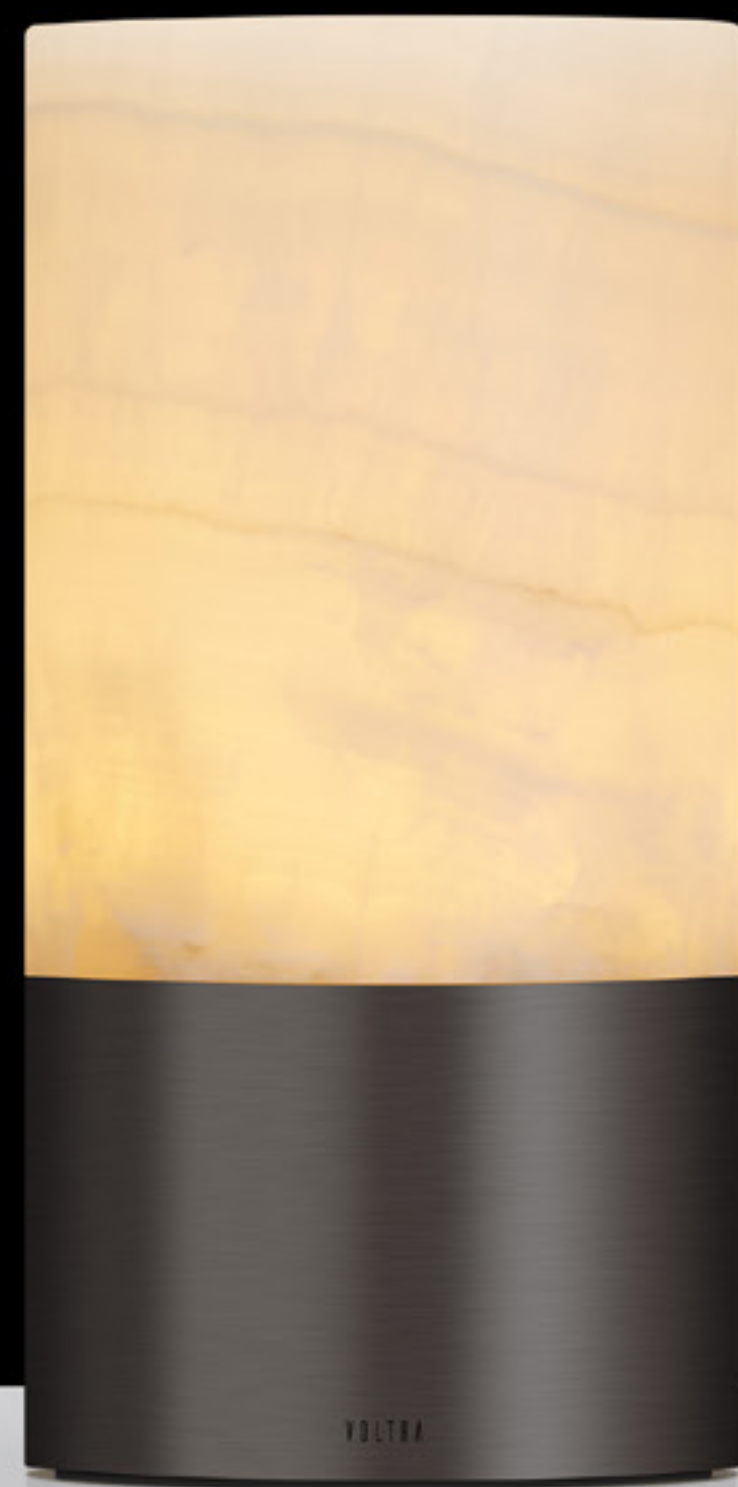

Precision cut alabaster creates an even illumination. The use of stone makes each piece unique and gives the lamp an impressive weight.

VOLTRA

ARTIST

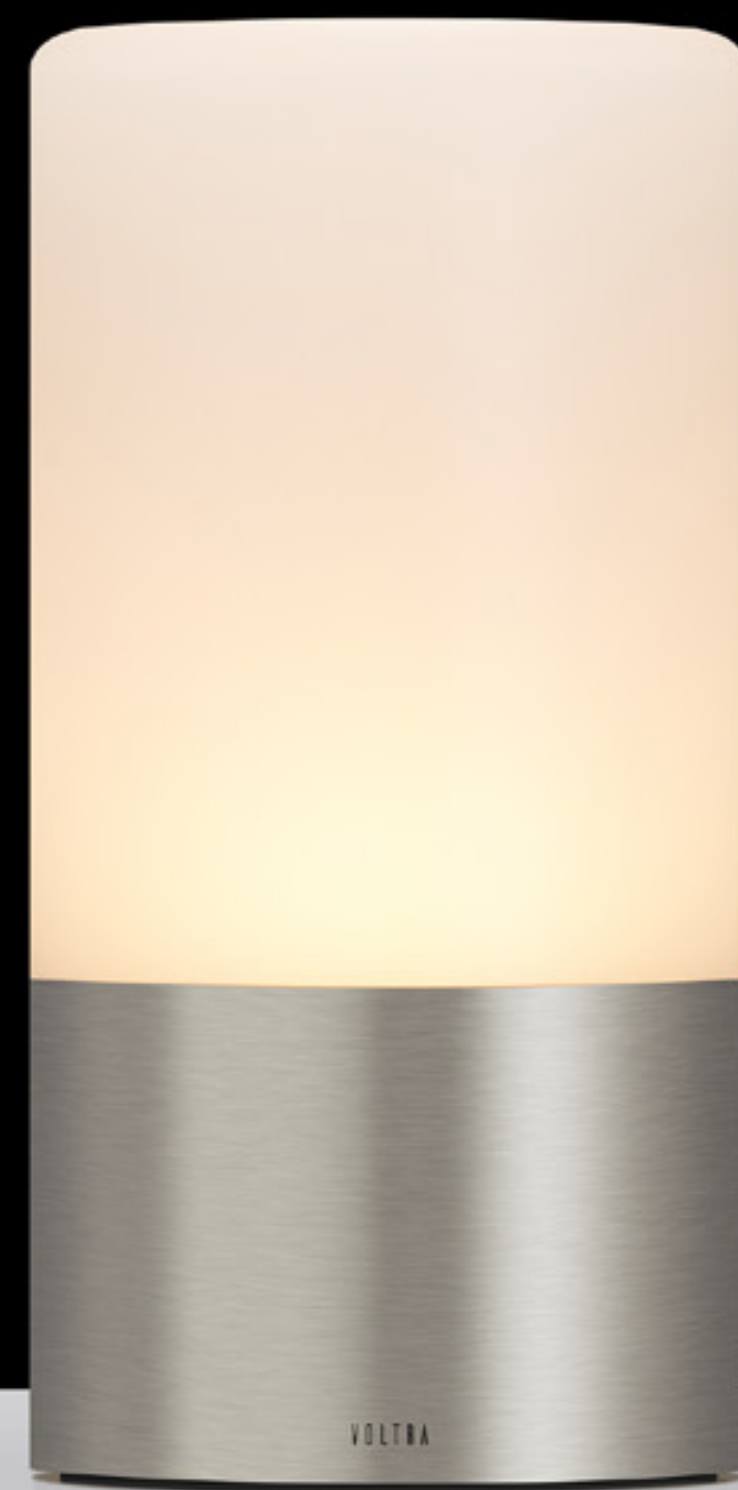

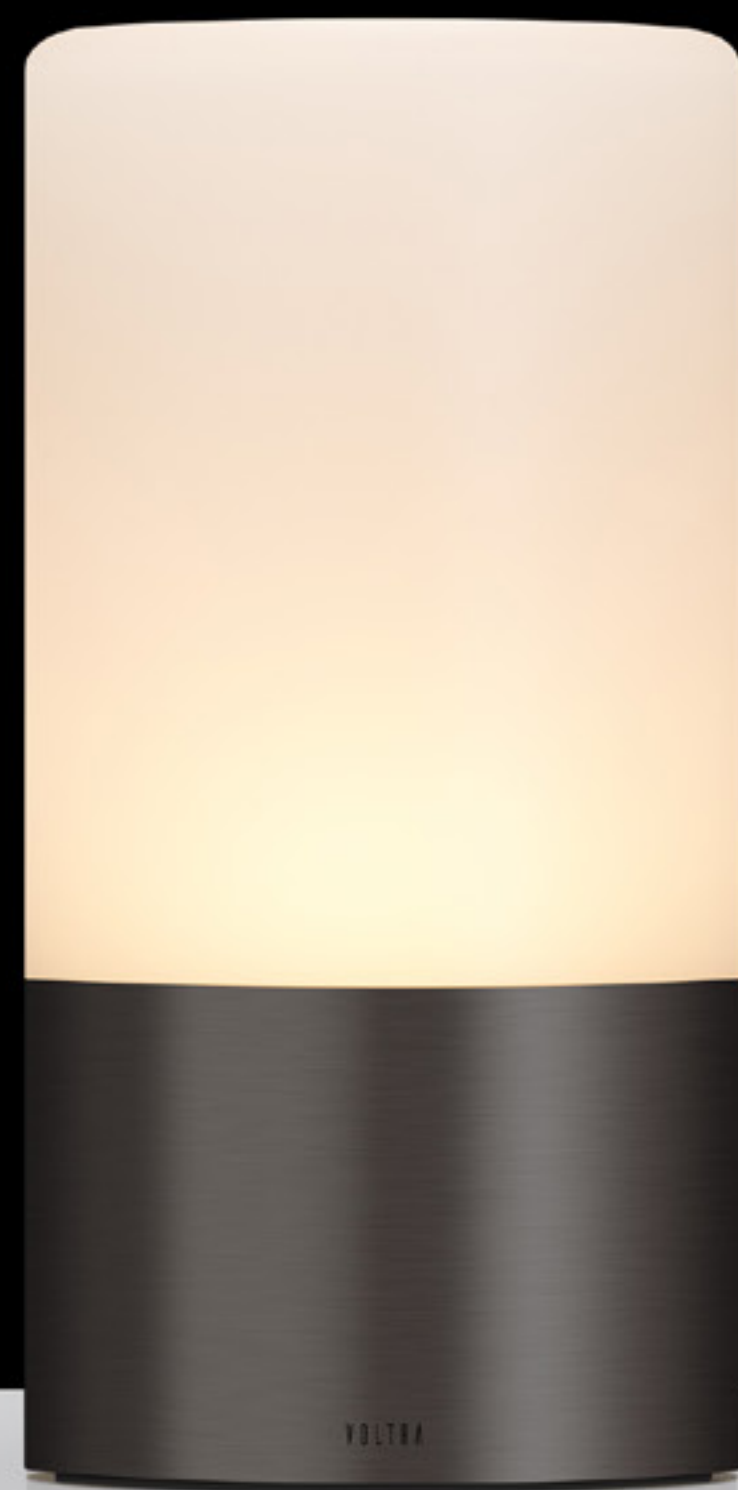

Frosted

A soft, ambient diffuser is designed to gently disperse light, creating a warm glow. Grounded with a contrasting metal base.

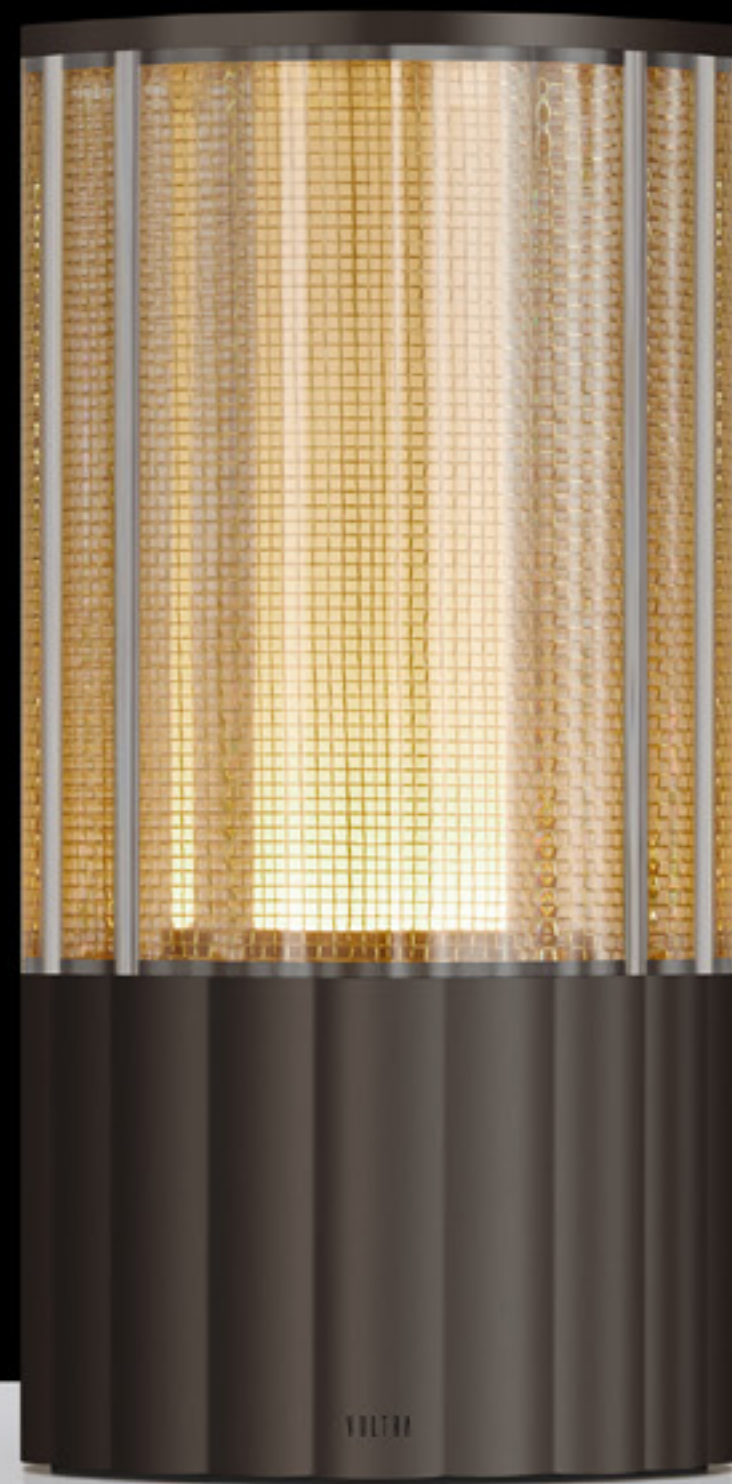

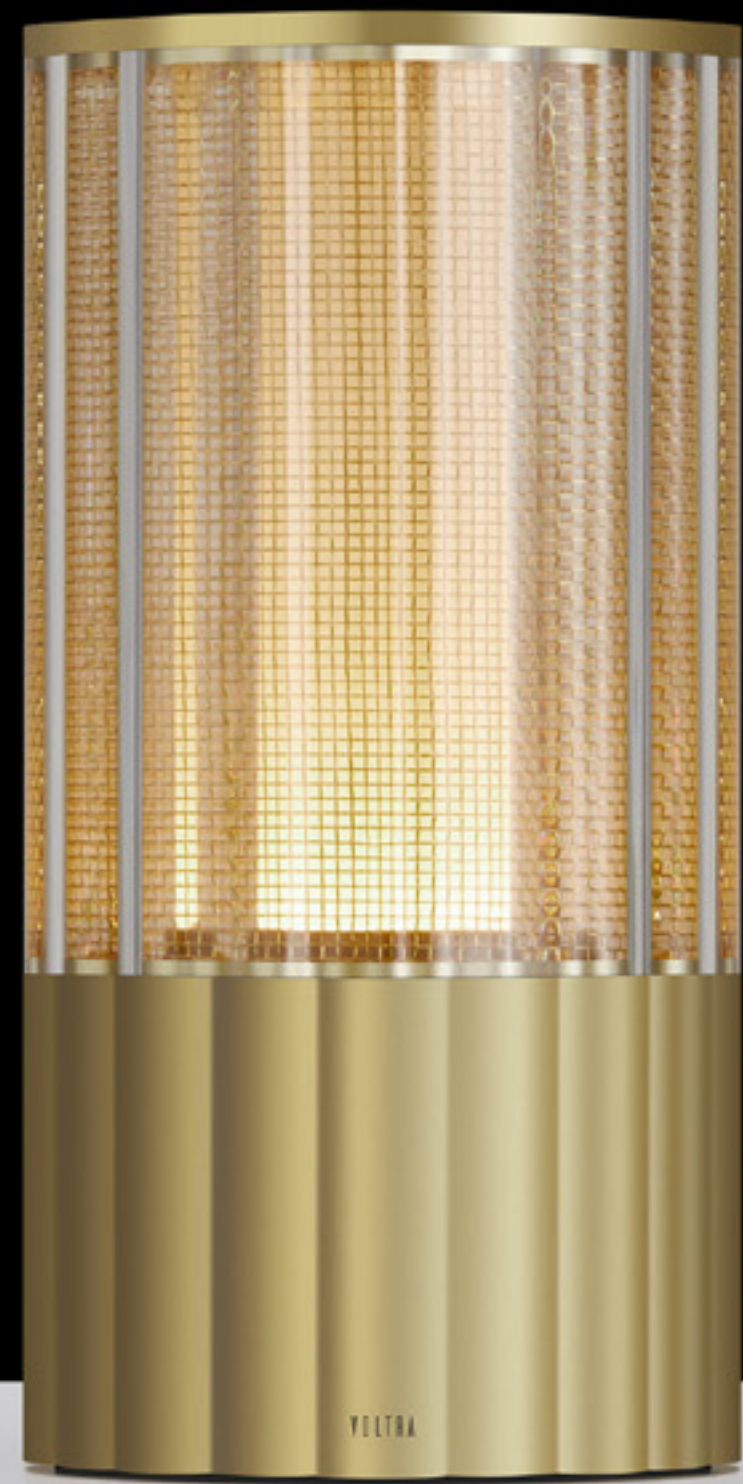

Reeded

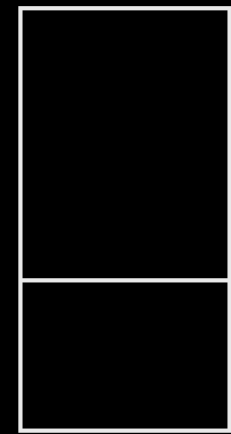

A transparent reeded shell with brass mesh lining cocoons the candle-like internal light.
